The Official Company Newsletter

Vol. 5 Issue. 1

4th of July

For the up coming holiday it has been decided that work will cease on Friday July 2nd at noon and resume Tuesday July 6th at 6am. That should give everyone enough time to enjoy the fireworks and cook outs. To put it simple, no work on Monday July 5th.

Company Vehicles

For all the new folks and us old employees who forget, there is a system for the trucks. All the white club cab trucks are for the crews who travel out of town. All the orange trucks (pumpkins) are for the in town crews. The white truck with the ladder rack is for the pipe crew (Ryan Berg/Troy). The red truck with the long box (red rocket) is for the shop crew. Remember that driving a company vehicle is a privilege and can be revoked at anytime.

Vacation Request

A reminder that if you are looking to take some time off this summer you need to fill out a vacation request form. The request needs to be filled out at least 2 weeks prior to the day needed off. The requests are reviewed on a first received first granted basis. If for some reason there is a day that a lot of people need off we may not be able to grant everyone's request. Emergencies and Funerals are always an exception in our book.

Seatbelts Save Lives

You have all heard it before, but we all need reminding, wear your seatbelt.

Answer: 10

G

A fellow co-worker, Aaron Gregoire, is part of the FA148th troop that has their orders for Iraq. On July 3rd of this year he leaves for training in Texas. Once there they will spend 3 months train and from there they go to Iraq.

"Never in the face of human conflict has so much been owed by so many to so few."

- Winston Churchill

Word from Vicki

Just about 4 weeks ago Vicki Johnson was in a car accident that has put her on the injured reserve list. She was rear ended on US Highway 2 and spun out of control into the ditch where she was ejected. The accident left her with broken ribs, broken ankle in three spots, a shattered hip, and some liver damage. She is now recovering and each day feels a little better. She is very grateful to be alive and thankful for Phil Labine who helped in the time of emergency.

Lock up

At the end of the day make sure we lock up the landfill gate, the back gate at American Crystal Sugar, and lock the doors at the shops.

Trivia:

This month's question: How many new guys have we hired this spring?
